(Under process).

Limited Registration *(For first 200 persons only)*

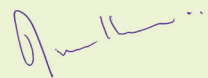

Note from Organizing Committee

Greetings,

On behalf of the PSG Institute of Pulmonology, PSG Hospitals and PSG IMS & R we are pleased to invite you to Coimbatore. Pulmonary Rehabilitation is an important intervention for patients with Chronic Lung disease of varying etiology. This branch of Medicine is still in its infancy in our country. It is not hi-tech, but due to lack of training and resource persons in our country, a majority of patients in need, are not able to get the benefit of this intervention. Even at centers which offer Pulmonary Rehabilitation to patients, they are not able to complete the programs, due to logistic limitations. Keeping this in view, the main themes of this conference begin with concept building and include, developing a flexible Pulmonary Rehab programme to suit the local conditions.

Reknowned Pulmonologists, Physicians & Therapists, who are the pioneers in the field of pulmonary rehabilitation, are the faculty in this conference. Professor. Darcy D Marciniuk, President ACCP (2012-13), is one such eminent personality gracing this occasion. The conference will have workshops & case presentations to make it more useful to the participants.

Coimbatore is a very hospitable city and there is no shortage of entertainment for your family members accompanying you. We in the PSG Institute of Pulmonology and the organizing committee look forward to seeing you in January 2012.

Dr. RM.PL Ramanathan
Organizing Secretary
